Sharing of Personal Information

When sharing information that includes personal data (e.g., grades, examination results), ensure that the announcement allows only the intended recipients to view it.

Use of University platforms

Maximize the use of our secure platforms when posting grades and submission of class requirements like the CRS and UVLê.

Use of UP Mail

Use UP Mail in communicating with co-faculty and students. Enable the multi-factor authentication as an added level of security against unauthorized access.

Use of Online Social Networks

When using online social networks, it is important to remember to only post or share personal data if there is a legitimate purpose in doing so.

Always remember:
Be proactive in protecting YOUR OWN PRIVACY
